TECHNICAL CUSTOMER SUCCESS MANAGER | ADOPTION + GRR | HEALTH SCORING + QBRs

Technical Customer Success leader with 10+ years driving adoption of high-touch, high-stakes products and programs. Known for getting implementations right early, enabling champions, monitoring usage/health signals, and calmly owning escalations—translating outcomes into renewal confidence and expansion opportunities. Deep strength in the messy middle between humans and systems: onboarding, readiness workflows, troubleshooting at a distance, enablement playbooks, and Voice-of-Customer feedback loops that improve product.

Core Skills: Technical Customer Success (TAM/CSM) · Implementations & Onboarding · Account & Stakeholder Management · Adoption & Enablement · Usage Analytics / Health Signals · Escalation Management · Value/ROI Storytelling · Cross-functional Leadership (Product/Eng/Design) · Voice of Customer → Product Improvements

EXPERIENCE

BETTER THAN UNICORNS

Asheville, NC

Co-Founder | Head of Customer Success (Technical / TAM)

May 2017 - Present

- Owned end-to-end customer lifecycle for enterprise and mid-market teams—discovery → solution design → onboarding/implementation → adoption → renewal/expansion, serving as primary technical + strategic partner.
- Increased time-on-platform 77% and improved retention 43% by launching repeatable onboarding rituals that combined tech readiness with adoption behaviors; supported long-term usage across 6,000+ enterprise users in hybrid environments.
- Built and operationalized usage/health monitoring dashboards; increased engagement 41% by spotting drop-off patterns early and deploying targeted enablement and champion support.
- Created a weekly “VR Champions” enablement program that shifted adoption from facilitator-led to customer-led and increased recurring revenue 65% through sustained usage and expanded use cases.
- Led escalations during high-stakes live sessions—remote troubleshooting, expectation resets, and cross-functional coordination to resolve issues fast and protect customer outcomes.
- Closed the loop from Voice-of-Customer to product: captured friction points, translated them into clear requirements, and partnered with dev/design to ship improvements that increased stickiness.

ANUMA

Remote

Technical Customer Success Consultant (Clear Light Program) | Implementation + Adoption

May 2022 - Jul. 2025

- Provisioned and configured every VR device shipped; created/managed participant accounts and ensured session readiness before scheduled cohorts.
- Provided remote implementation support and troubleshooting (connectivity, access, device readiness, in-session issues), minimizing disruption during live sessions.
- Built repeatable onboarding + enablement assets (setup checklists, pre-session readiness steps, troubleshooting guides, facilitator run-of-show) to standardize rollout across cohorts.
- Monitored engagement signals (attendance, drop-off moments, participation patterns) and adjusted program flow to improve early activation for new participants.
- Served as Voice-of-Customer bridge between facilitators/participants and the platform team—captured friction points, translated feedback into requirements, and supported iterative improvements.

MURAL

Remote

Lead Facilitator (XR Pilot) | Technical Onboarding + Adoption (TAM/CSM)

Jan. 2024 - May 2024

- Partnered with our cross-functional team to design Gone Sailing (a life-sized, VR-native version of the Sailboat retrospective) leveraging spatial metaphor to drive meaningful engagement. Integrated into MURAL’s immersive facilitation suite, this feature contributed to a 40% increase in session participation and return usage, with VR-skeptics becoming repeat users.
- Improved user satisfaction by 30% through iterative, user-centered design of VR-based facilitation tools. Through interviews and in-session observations, participants consistently reported higher presence, clarity of collaboration, and workshop value.
- Supported a strategic XR partnership with Meta, co-developing immersive facilitation tools within Horizon Worlds that integrated seamlessly with Mural’s enterprise content systems. This collaboration led to a 25% increase in user adoption and retention, with VR workshop outcomes rated equal to or better than in-person sessions by early enterprise users.

HEURISTA, Co.

Asheville, NC

Head of Product (Customer Outcomes + Adoption Focus)

May 2018 - Aug. 2019

- Cut development cycles 30% and increased NPS by 18 points by resetting delivery cadence, clarifying requirements, and rebuilding execution capacity aligned to customer outcomes.
- Increased feature adoption 49% and reduced user drop-off 25% by redesigning key workflow navigation using user interviews and behavioral signals to validate improvements pre-rollout.
- Rebuilt and launched Philanthrosphere® SaaS platform; secured 3 pilot customers and delivered onboarding/support motion to validate adoption and scalability.
